Title: "Indische Mission. General Conf. Canara 1872. 46 / Letters and Reports from India. General Conference. South Karnataka. 1872. [Vol] 46"

Ref. number: C-01,050

Date: Proper date: 1872

Description: The reference to [volume] 46 corresponds to the remark already made on C-1.36 above. The label which is quoted here is a photocopy of a label which was evidently removed when the volume was rebound and renovated in the 1990s. This volume only partially corresponds to C-1.46, containing only the General Conference and the South Karnataka correspondence. North Karnataka correspondence is to be found in C-1.51. The amount of correspondence is nevertheless of the same order of magnitude as that found in C-1.46. This volume also shows one new organisational trait: where in previous volumes the documents were numbered within the individual sections, here they are numbered through the whole volume. It contains, indeed, 217 documents. For the first time a section exists for correspondence from Karkala, bound in between the sections for Udipi and Honowar. Replies to a Committee query about roofing materials used on Basel Mission stations is collected at C-10.5.9
